Our owner protects us with VPI.

That's a good human.<sup>SM</sup>

### What is pet insurance?

Pet insurance provides a financial safety net for unexpected veterinary expenses. With pet insurance, you can focus on giving your pet the best care possible, instead of focusing on the cost of treatment.

### What is your backup plan?

Accidents and illnesses happen to pets just as readily as they do in children. And though advances in veterinary medicine help treat and cure many conditions, the costs of these treatments are increasing. What would you do if your pet got sick or hurt today? Would you have enough in savings to cover the veterinary costs? VPI Pet Insurance can help you pay for your pet's veterinary expenses.

### Why choose VPI?

We believe that pet healthcare should be affordable and accessible. That's why we have a variety of plans to choose from with coverage for preventive care, accidents, illnesses and diseases, including cancer. We were the first to introduce pet insurance in the U.S. and continue to be the unparalleled leader in the industry.

- Plans designed by veterinarians to provide the best reimbursement for your premium dollar.
- All VPI medical plans cover chronic and recurring conditions that are not pre-existing at enrollment—at no extra charge.
- Use any licensed veterinarian in the world.
